- You can undertake one or more of the **Lantra** (Land Training) **qualifications** listed in the table above.
- All our Lantra qualifications are **competence-based** courses and upon successful completion you receive a Lantra certificate.
- Lantra, as a Sector Skills Council for the land-based industries, has a responsibility for promoting sector performance and has developed a range of nationally recognised training courses. The Scottish Wildlife Trust has developed a selection of courses in conjunction with Lantra (marked with *), which allows us to deliver a **unique** range of short courses to participants.
- All our training supervisors are Lantra-trained to deliver and assess the qualifications.
- All training takes place on our own wildlife reserves and other countryside or urban wildlife sites, therefore providing training in as wide a variety of locations and in as wide a range of countryside skills as possible.
